

You bring the boardroom judgement.

We bring real AI scenarios to test it on.

A 3-hour online AI governance workshop for directors and leadership teams.

AI Workshop for Directors

Build judgement for the decisions AI is changing now.

AI is rapidly reshaping the strategic choices and risks facing every board. This scenario-based workshop works through a simulated organisation to build the judgement directors need.

- › Learn the AI concepts every director needs to know
- › Recognise AI opportunities and risks through real scenarios
- › Leave with sharper questions for your next board meeting
- › Collaborate with directors from other organisations

FACILITATOR

Steve Telburn, BSc, MBA, GAICD · AICD presenter

Draws on first-hand board and risk leadership, practical AI adoption experience, and a venture capital view of emerging technology.

Certificate provided to claim AICD CPD points or PD allowance
